

Job Announcement

Building Codes Consultant

Advertised Salary:

\$40,982 - \$58,547 per year

General Description:

DCA is seeking a Building Codes Consultant for its Community Development team. This position will update and maintain Georgia's nine mandatory construction codes and four permissive codes, along with statewide amendments; provide technical assistance to local governments, the construction industry and the general public; and maintain code amendments submitted by local governments. This position is also responsible for providing staffing for the State Codes Advisory Committee, Industrialized Buildings Program, subcommittees and task forces.

DCA is a state organization dedicated to partnering with communities to help create a climate of success for Georgia's families and businesses. We offer a fast paced, challenging and dynamic work environment that requires innovative thinking, pride in quality work, and the ability to work as a versatile team player. DCA gives its employees the opportunity to do more than merely make a living. We are serious about helping Georgia's families live more abundantly with a greater sense of hope and achievement. If public service and the desire to enrich the lives of others motivates you to do your best work, you should consider joining the DCA Team.

Knowledge, Skills, & Abilities:

- Knowledge and considerable technical competence of the Georgia State Minimum Standard Codes for construction
- Knowledge of compliance standards
- Knowledge of government policy and procedures
- Skill in developing and assembling technical and administrative data for presentation
- Computer literacy and usage skills
- Skill in providing exceptional customer service
- Skill in oral and written communication
- Ability to meet and deal effectively with a wide range of individuals, including elected and appointed officials, professionals, professional organizations and the general public
- Ability to review, research and report new materials, systems, standards and code changes
- Ability to compose and prepare detailed revisions to State Minimum Standard Codes for consideration by various accrediting groups and local government officials
- Ability to manage multiple tasks

Agency Specific Minimum Qualifications:

Master's degree in Construction, Engineering, Architecture, Public Administration or a directly related field
OR

Bachelor's degree in Construction, Engineering, Architecture, Public Administration, Public Policy, Political Science or a directly related field.

OR

Associate's degree in Construction, Engineering, Architecture or a directly related field **AND** Three years of experience in architecture, engineering, building construction, building inspection, or building codes compliance

OR

Four years of experience in architecture, engineering, building construction, building inspection, or building codes compliance

Position Requirements:

Job candidate for this position will be subject to a criminal background check, educational degree check, and reference checks prior to the extension of a job offer.
